Subject: RE: Super-Quick Turnaround Request: \$ Estimates Needed: Hurricane Supp for OLEM (Due 4 PM (ET) Today)
Date: Tuesday, September 19, 2017 3:04:38 PM

Jeff – I spoke with TCEQ (Brent Wade) and LDEQ (Bijan Sharafkhani) and they are not requesting additional RCRA C resources to help with Harvey Recovery.

Subject: Super-Quick Turnaround Request: \$ Estimates Needed: Hurricane Supp for OLEM (Due 4 PM (ET) Today)

Dear Regional RCRA and Tanks DDs, Deputies and BCs -

I have a very quick turnaround request related to hurricane supplemental funding – **due by 4 PM (ET) today**. Please see the messages below for details. Please send me information you may have to help ORCR & OUST come up with rough dollar estimates for the following:

RCRA: Waste Management (A1 & 99)

- Funding may be needed for debris management and technical assistance for the damaged/flooded hazard waste correction action facilities impacted by the storms.

RCRA: STAG (11)

- Funding may be need to support states in addressing the inspection and cleanup of hazardous waste facilities/corrective action sites affected by the hurricanes.

LUST: LUST Cleanup (87)

- LUST program may need additional funding, similar to Hurricanes Katrina/Rita and

Sandy, to support states as they assess and, if needed, clean up releases at UST sites impacted by Hurricanes Harvey, Irma, and potentially, Maria.

Thank you. Please let me know if you have any questions.

Jeff Norcross

Subject: FW: \$ Estimates Now Needed: Hurricane Supp for OLEM

Now OMB wants ball-park estimates of \$ needs to match what we sent up yesterday. Jennifer is asking that we work with Regions, so I've cc'd Jeffery too.

Subject: \$ Estimates Now Needed: Hurricane Supp for OLEM

All,

Just heard from OCFO ...OMB is now looking for ballpark estimates of anticipated need in \$. Rough estimate based on the description/categories below. I know many of you do not have any solid assessment of need, but please work with regional offices to guesstimate. I recognize and have conveyed that Maria is conspiring to make this even more difficult, but for Irma and Harvey please see what you can get. Using ballpark estimates from prior storms would be useful too.

Thanks

Jen

Subject: Hurricane Supp for OLEM

Hamilton,

As requested, here is rough outline of potential needs for a supplemental appropriation. There are high level programmatic areas with a general explanation of need and any potential concerns that would need to be addressed in the language for effective use.

Superfund: Remedial (D2)

- Funding would support additional investigation, remediation or monitoring of Superfund sites impacted by Harvey, Irma and possibly Maria.
- Potential concerns may involve state cost share and a request for a waiver of those costs may be needed to expedite work, as was done under ARRA.

RCRA: Waste Management (A1 & 99)

- Funding may be needed for debris management and technical assistance for the damaged/flooded hazard waste correction action facilities impacted by the storms.

RCRA: STAG (11)

- Funding may be need to support states in addressing the inspection and cleanup of hazardous waste facilities/corrective action sites affected by the hurricanes.

LUST: LUST Cleanup (87)

- LUST program may need additional funding, similar to Hurricanes Katrina/Rita and Sandy, to support states as they assess and, if needed, clean up releases at UST sites impacted by Hurricanes Harvey, Irma, and potentially, Maria.

Brownfields: STAG (79)

- Brownfields funding for Targeted Brownfields Assessments may be needed to assist communities with the assessment and characterization of contaminated or potentially contaminated properties.
